

Dear the scheduled 9th Conference presenter of AADT

The 9th Conference of the Asian International Association of Dental Traumatology, Cebu was obliged to be cancelled on account of the world spreading of corona virus. It was then converted to the online Conference referred to as “The Online 9th Conference of AADT, 2020” by releasing the abstracts on the WEB of the Japan Association of Dental traumatology (JADT), <http://www.ja-dt.org/>. The abstracts are attached by dividing into two parts with the e-mail. All the presentations are officially approved as original research works and each presenter should be careful not to announce the same results in the future conference.
